Real Estate Switzerland, Direct Mandates

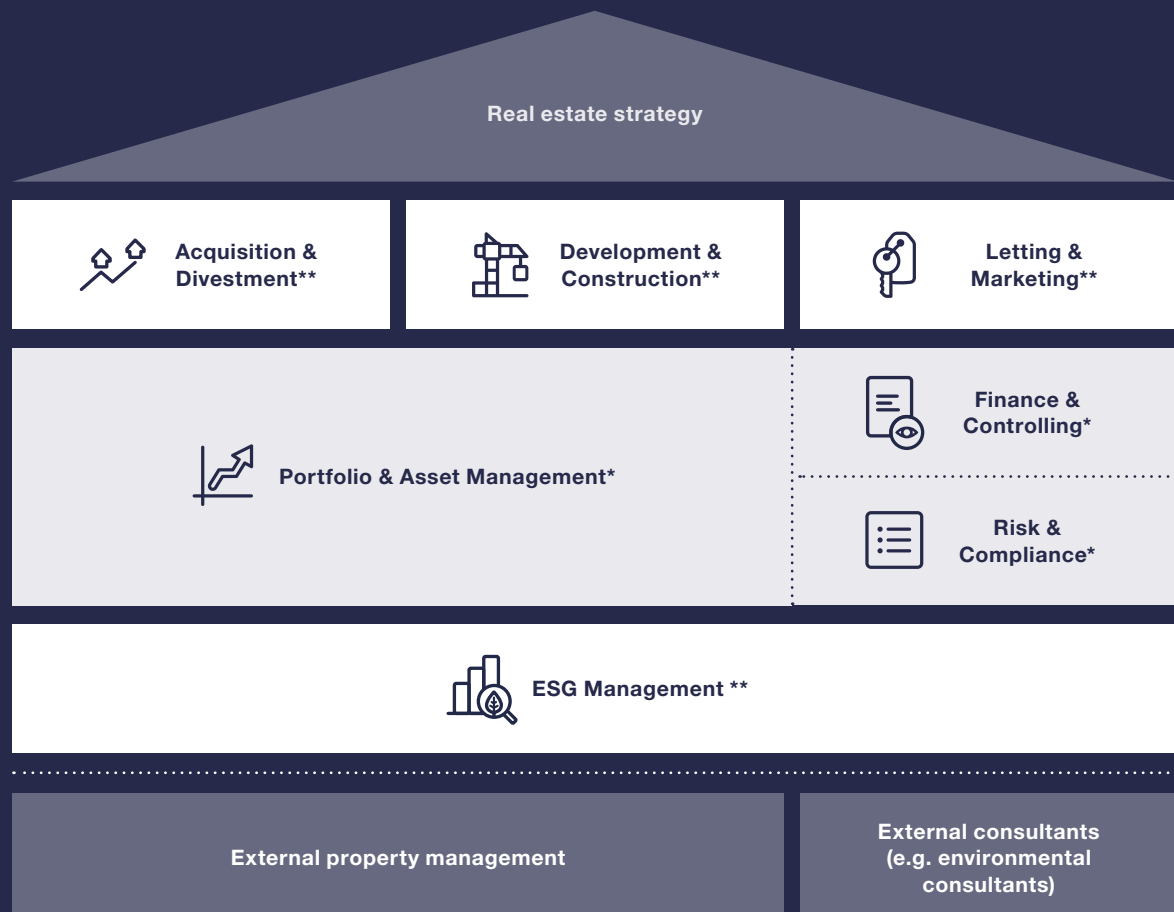

Expertise with a modular system

Swiss Finance & Property Funds Ltd is a FINMA-licensed fund management company that brings together around 50 real estate and corporate finance specialists as part of an established and effective team.

We offer services relating to the management of properties that are held directly throughout their entire life cycle.

Mandates are taken on based on a real estate strategy that is used to define or adopt a business plan for implementation in consultation with the client. Depending on the focus of the business plan, priorities are assigned to our core areas of expertise in accordance with a modular toolbox system (basic and additional services).

In addition to regularly reviewed standards of best practice and well-developed governance, we offer our clients contemporary real estate management with a high standard of digitisation and reporting. As a UNPRI reporting signatory, we also focus on the implementation of sustainability standards as well as measures to reduce the CO₂ emissions of the properties we manage.
